

:DEFIHELPER

One crypto dashboard to
rule them all

LITEPAPER

Key problems

:DEFI
HELPER

- Centralized apps have wider functionality, but are not safe
- Decentralized apps have limited functionality
- Every blockchain transaction requires the user's approval
- So many apps, so much hassle

Solution

:DEFI
HELPER

Flexible: cross-chain solution by design

Easy to use: no coding skills required

Create complex automations with ease

Secure: non-custodial, decentralized, and audited

DFH does not ask for your private keys

DFH is a non-custodial **investment tool** that helps investors of any scale to **easily manage** and **automate** their DeFi investments in 400+ protocols while keeping their **funds safe**

KEY FEATURES

:DEFIHELPER

11 supported blockchains

DeFi protocols

CEXes

DeFiHelper

- Overview of the entire DeFi portfolio across chains
- Direct purchase of LP tokens
- Offline mode: portfolio manager works even without a wallet connected.
- Impermanent loss tracking
- Real APY tracking

No-code automation

- Create automated investment strategies without having to know coding: **'Take Profit'**, **'Stop Loss'**, **'Send a Notification If <Condition>'** and many others
- Find ready-made high-yield strategies on the investment marketplace (soon)

Choose condition

Contract Metric

Contract metric condition

Optimized Staking

Use auto-staking

Schedule

Choose a specific time frame to launch automation

Native Token Balance

Check native token balance (ETH, BNB, AVAX etc.)

Gas Price Fluctuation

Check gas price with expected values based on specific time and day

Auto-staking

- Auto-staking is a built-in automation. It helps you earn more by automatically adding your profits to the deposit, effectively auto-compounding your interest
- DFH has the most effective auto-compounding algorithm on the market. Our mathematical model makes decisions by taking into account current and historical fees, the prices of tokens, and other factors
- More built-in automations will be added in the future

Notifications

- Daily updates on your portfolio's balance (Telegram, email)
- APY updates on contracts you have invested in
- Major updates on protocols you follow (soon)

KEY FEATURES

:DEFIHELPER

Portfolio manager

IN DEVELOPMENT

Client profiling

Risk-taker; risk-averse; DeFi farmer; stablecoin lover etc.

Risk analysis of protocols and tokens

DFH constantly assesses all connected protocols and tokens and rate them as following: 'low risk', 'medium risk', 'high risk'

Investment recommendation

\$ 40%

🌈 40%

20%

Security

- Two-layer architecture
- No vaults or pools. You always stay in control of your funds
- The protocol has no control over the bulk of the deposit
- Decentralized
- Non-custodial
- The code is open and audited

Competitive advantages

:DEFI
HELPER

How is it better than similar products?

- 2,700+ connect contracts, 400+ protocols (and counting)
- Auto-compounding
- Offline mode
- Advanced automations constructor
- Ready-made investment strategies (soon)
- Notifications via Telegram / email
- Portfolio manager with client profiling, protocols' risk assessment and investment recommendations
- No vaults or pools. You always stay in control of your funds
- Direct purchase of LP tokens
- Impermanent loss and real APY tracking
- Stats and historical data.

Target audiences

:DEFI
HELPER

Sophisticated private crypto investors

- All-in-one-place portfolio manager
- Automations
- Profit boosting
- Ready-made investment strategies
- Instant purchase of crypto with a credit card

Institutional investors

- All-in-one-place portfolio manager
- Automations
- Additional revenue stream (investment marketplace)
- Profit boosting

The market

:DEFI
HELPER

4,500,000 users

The total number of DeFi users as of March 2022

4,500% total growth

The total growth of DeFi user base in 2020-2022

8,800,000 users

The combined monthly audience of DeBank, Zerion, Zapper, Autofarm and Vfat.tools

The future of DeFi

:DEFI
HELPER

- Keeping tabs on hundreds of protocols is too much of a hassle.
- Most protocols will become a back-end for wallets and portfolio managers.
- Wallets and portfolio managers will turn into super-apps akin to modern-day banking applications. Users will be able to do almost anything from these apps: store crypto, buy, sell, transfer, lend, borrow, stake, insure, convert, create automations, track stats etc.

Our long-term vision

Home-screen app for every DeFi user

Marketing

We have plenty of experience in marketing other DeFi projects. We understand which marketing channels and instruments are the most (and least) effective in crypto.

To be paid in stablecoins

- Partnerships
- AMA events
- Reddit / Twitter
- Articles (HackerNoon, Cointelegraph etc.)
- Influencers (YouTube)
- Contests
- Programmatic ads
- Ads on crypto websites

Can be paid with DFH tokens

- Referral program
- Ambassador program
- Bug bounty program
- Educational marketing (Coinmarketcap Earn, Rabbithole.gg)

DFH team

:DEFI
HELPER

10 full-time employees + hiring 5 more

VLADISLAV KOMISAROV
CEO AND FOUNDER

Vlad has over 17 years of experience in web development. He has launched and managed a number of major ICT products and services on the CIS market.

ARTEM TOLKACHEV
CO-FOUNDER

Former head of the Blockchain Lab at Deloitte. For over seven years, Artem has been one of the key opinion leaders in the CIS region in blockchain and tokenization.

ILYA MUNERMAN
HEAD OF R&D

Ilya is the author of our DFH mathematical model. He is the Head of Scoring and Analytics at Interfax, has a PhD in economics, and works as an Assistant Professor at New Economic School and HSE University.

BEN ASHWORTH
INVESTOR RELATIONS

Ben graduated with a law degree from Newcastle University before travelling the world, becoming bi-lingual in Spanish during his travels. Ben has over 4 years experience in crypto and is a firm believer in DeFi.

Governance

DFH will be community-governed.

Profits distribution

Stake your DFH tokens for 6/12/24 months and earn passive income.
The longer the staking period, the larger the share of income.

Discounts and perks

Discounts on DFH services for DFH token holders + early access to new features.

DFH 2022 forecast

	Q2 2022	Q3 2022	Q4 2022	Q1 2023	Q2 2023
Wallets	5000	14,100	189,000	400,000	700,000
Paid Users	100	3,300	33,900	132,000	230,000

Revenue streams

- Automations: \$1 per executed transaction + the network fee
- Notifications: \$10 per 1000 notifications
- Instant purchase of crypto with a credit card: a small fee
