Investing in DeFi takes a lot of time and effort

DEFI
HELPER

Non-custodial wallets are the safest option for your crypto. But they lack some vital features.

No tracking, notifications, basic investment features (stop-loss etc.) as on large crypto exchanges

 **BINANCE**

No automation as in crypto-exchange add-ons

No auto and copy strategies as in traditional investments apps

DFH is a sweet escape from this hassle

DEFI
HELPER

DFH is an **investment tool** that helps investors of any scale to **easily manage** and **automate** their DeFi investments in 100+ protocols.

**Flexible: cross-chain
solution by design**

ETH, WAVES, BSC, AVAX, MATIC and
other major blockchains

**Secure: non-custodial,
decentralized, and audited**

DFH does not ask for your private keys

**Easy to use: no coding
skills required**
